# 1. Horizon Cli 1.7.5 release notes

Doc Writer EverTrust R&D v1.7.5, 2025-04-16 :docdate: 2023-11-28 :version: 1.7.5 :numbered:

Here are the release notes for EverTrust Horizon Client v1.7, released on 2025-04-16. For the installation and upgrade procedure, please refer to the Installation and Upgrade guide.

## 1.1. New Features

[None]

## 1.2. Enhancements

- [HCL-261] - Improved error handling sent by Horizon server
- [HCL-258] - Added metadata editing on bulk update
- [HCL-255] - Added metadata editing on bulk migrate
- [HCL-242] - Windows log is now written in CRLF format instead of LF format
- [HCL-194] - Enabled winstore options with SCEP protocol
- [HCL-185] - Added key-type option with SCEP protocol

## 1.3. Bug Fixes

- [HCL-260] - Fixing a bug where a bulk migrate or a bulk update command failed to complete operation when query references the updated field

## 1.4. Known defects

[None]

## 2. Horizon Cli 1.7.4 release notes

Doc Writer EverTrust R&D v1.7.4, 2025-04-16 :docdate: 2023-10-17 :version: 1.7.4 :numbered:

Here are the release notes for EverTrust Horizon Client v1.7, released on 2025-04-16. For the installation and upgrade procedure, please refer to the Installation and Upgrade guide.

### 2.1. New Features

[None]

### 2.2. Enhancements

[None]

### 2.3. Bug Fixes

- [HCL-229] - Fixing a bug in third party encoding, now enabling SCEP enrollments for all key sizes
- [HCL-228] - Fixing IIS parsing in some edge cases resulting in an inability to detect ssl certificates
- [HCL-236] - Fixing a bug when unsetting values in install command
- [HCL-237] - Fixing a bug where revocation reason was not sent in webra revoke

### 2.4. Known defects

[None]

## 3. Horizon Cli 1.7.3 release notes

Doc Writer EverTrust R&D v1.7.3, 2025-04-16 :docdate: 2023-10-09 :version: 1.7.3 :numbered:

Here are the release notes for EverTrust Horizon Client v1.7, released on 2025-04-16. For the installation and upgrade procedure, please refer to the Installation and Upgrade guide.

### 3.1. New Features

[None]

### 3.2. Enhancements

[None]

### 3.3. Bug Fixes

- [HCL-224] - Fixing automate iis renewal
- [HCL-225] - Fixing case sensitivity in DNS names comparison
- [HCL-217] - Fixing metadata automation policy that was not being set on EST challenge

### 3.4. Known defects

- [HCL-229] - SCEP enrollments with key sizes equal or larger than 4096 will fail due to a third party bug in legacy encoding formats. We recommend customers who actively use this workflow to wait for a patch to be available.

## 4. Horizon Cli 1.7.2 release notes

Doc Writer EverTrust R&D v1.7.2, 2025-04-16 :docdate: 2023-09-14 :version: 1.7.2 :numbered:

Here are the release notes for EverTrust Horizon Client v1.7, released on 2025-04-16. For the installation and upgrade procedure, please refer to the Installation and Upgrade guide.

### 4.1. New Features

[None]

### 4.2. Enhancements

- [HCL-203] - Adding ability to unset fields in the config file
- [HCL-204] - Adding contactEmail support on import

### 4.3. Bug Fixes

- [HCL-197] [HCL-200] [HCL-201] - Fixing IIS automation behaviour

### 4.4. Known defects

- [HCL-229] - SCEP enrollments with key sizes equal or larger than 4096 will fail due to a third party bug in legacy encoding formats. We recommend customers who actively use this workflow to wait for a patch to be available.

## 5. Horizon Cli 1.7.1 release notes

Doc Writer EverTrust R&D v1.7.1, 2025-04-16 :docdate: 2023-08-24 :version: 1.7.1 :numbered:

Here are the release notes for EverTrust Horizon Client v1.7, released on 2025-04-16. For the installation and upgrade procedure, please refer to the Installation and Upgrade guide.

### 5.1. New Features

[None]

### 5.2. Enhancements

- Supporting a new crypto provider on Windows
- Supporting new CSPs/KSPs
- Improving the netscan speed (parallelized scans)

### 5.3. Bug Fixes

- [HCL-192] - Importing a CA on the Windows intermediate CA store could not work in some cases
- [HCL-191] - Bulk update operations were not compatible with the new metadata policies under some circumstances

### 5.4. Known defects

- [HCL-229] - SCEP enrollments with key sizes equal or larger than 4096 will fail due to a third party bug in legacy encoding formats. We recommend customers who actively use this workflow to wait for a patch to be available.

## 6. Horizon CLI 1.7.0 release notes

Doc Writer EVERTRUST R&D v1.7.0, 2025-04-16 :docdate: 2023-08-11 :version: 1.7.0 :numbered:

Here are the release notes for EverTrust Horizon Client v1.7, released on 2025-04-16. For the installation and upgrade procedure, please refer to the Installation and Upgrade guide.

### 6.1. New Features

- [HCL-184] - localimport now supports a CSV source
- [HCL-178] - Add the Tomcat automation support on windows
- [HCL-169] - Automation asks for SANs on all protocols
- [HCL-172] - Automation ask for explicit permission before restoring a certificate that is used on multiple services
- [HCL-160] - Bulk revoke now supports a revocation reason parameter
- [HCL-181] - Localscan now scans Windows files
- [HCL-181] - Localscan now supports relative paths

### 6.2. Enhancements

- [HCL-181] - Localscan can read more configuration files
- [HCL-159] - Harmonize CLI flags across all supported protocols

### 6.3. Bug Fixes

- [HCL-177] - Automate enroll on an IIS server raised a CSP error
- [HCL-171] - Automate enroll through centralized EST didn't work properly
- [HCL-179] - X509 Authentication on Horizon failed on Windows when used for EST operations

### 6.4. Known defects

- [HCL-229] - SCEP enrollments with key sizes equal or larger than 4096 will fail due to a third party bug in legacy encoding formats. We recommend customers who actively use this workflow to wait for a patch to be available.
